Game Play Summary

The standard Trivia Kings game features ten (10) total rounds each evenly valued at twenty (20) possible points and running 10 minutes long. The first nine (9) rounds are divided up into three (3) standardized periods each containing three (3) different types of rounds. After each period, and at the end of the night, various prizes are awarded to the respective best performing teams. The reverse side of this tutorial serves as a scoring sheet to track your answers and as a guide through the process.

Each period contains the same types of rounds. These three types of rounds are known as **Decategories™** (10 Q's Each - Rounds 1•4•7), **InterQuiz™** (Handouts of Pictures/Matching/Music - Rounds 2•5•8), and **Triategories™** (3 Wager Q's Each - Rounds 3•6•9). These rounds provide a variety of format styles and different subject matter content. The final round is called **ConQuiz™** (Round 10) and is a single question of high difficulty where you may gain or lose 20 points. As the night moves on your host, and your answer sheets, will provide you with detailed instructions for each round.

Team Names & Information

If you are a new, in order to play we need you to provide us with your team name and player information. Please complete your "Team Information" sheet which is found on the reverse side of your "Round 1" answer sheet or on a separately provided sheet. If you would like to be considered a regular for team standing purposes, you will need to commit to using the same "season name" each week. Regulars then have the option of using a different "alias" each week, often for topical humor reasons. Deciding on a creative and entertaining team name is only the beginning of the fun, so do your best to get a good start. Your information will not be abused.

Answer Sheets

At the start of trivia, you should have a legal sized sheet, perforated for easy separation, containing the individual answer sheets for most of tonight's ten rounds. You may easily follow which part corresponds to which round by reading their respective titles or looking at their different numbered logo watermarks.

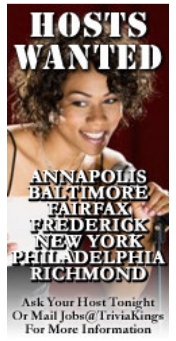

The rounds titled **Decategories™**, **InterQuiz™**, and **ConQuiz™** are self-explanatory but the **Triategories™** rounds are difficult the first time teams play. In brief, categories to all three questions are announced first. After each question is asked you then A) decide what point value (3•6•9) to assign to your answer, B) write in your answer, C) then separate and submit your answer to your host. Repeat this process for all three questions and if all three are correct you receive two (2) bonus points.

Bonus Points, Traditions, Standings, and Stats

Each night teams may receive bonus points through a variety of ways. It's all up to your host. Many of our trivia venues maintain their own "Cup of Knowledge" trophy which is labeled with, and passed down to, each of our weekly trivia champions. Every week our returning champions receive the distinguished honor of displaying this revered trophy at their table.

Every three months each venue concludes their season by recognizing teams leading in overall points with a small prize. Many of these teams receive invitations to our annual regional trivia championship..

In addition, Trivia Kings™ is the only major provider to electronically archive scores from every team, every round, every night, every season, and every location. Results are maintained online within our databases which offer regulars a means having a personal history and living perpetually beyond just a single night of trivia.
